Meeting of the Hoard of School Controllers. A stated meeting of the Board of School Controllers was held yesterday afternoon, M. Hall Stanton, President, in the chair,

The Committee on Normal School, through Mr. Steinmetz, reported that the condition of the school demands that there should be in-creased accommodation, or that there should be an amendment of existing rules in reference to the number appointed to each section in the admissions to this school. The committee present a statement, by which it appears that, while the building will properly accommodate no more than 460 pupils, there are now 500 pupils in attendance, and that the next admission will so increase the number as to make the accommodations wholly insufficient.

The report did not contain any proposition, but the chairman suggested that the board should advertise for a lot of ground on which to erect a school building sufficiently large to accommodate all the pupils who may be found to be sufficiently advanced.

The special committee and the state of the special committee and the state of the state

The special committee appointed to consider the subject of a change in the plan of admis-sion to the High and Normal Schools, re-ported through Dr. Nebinger.

It is proposed that the Committee on the Boys' High School shall select three male principals, who shall prepare ten questions on each of the following named subjects:-Geography, history, arithmetic, grammar, parsing, etymology, defining, and spelling, upon which the boys who desire admission into the Central High School shall be examined: and in like manner shall principals be chosen in reference to the Normal Schoolthe questions to be sent to the principals of the grammar schools twenty-four hours before the examination begins, which is to continue for five days; the average to be 75 to entitle to admission; the age of the pupil to be not less than thirteen years. It is also required that they shall have been at least six months in regular attendance at a school in the section from which they were sent.

A minority report was presented, signed by Mr. Gratz and Mr. Hartman, in which they recommend the lowest average to entitle to admission into the High or Normal Schools to be 65, and the lowest age to be fourteen years. The reports were ordered to be printed, and action upon them was post-

A proposition to reduce the average neces sary for a third-class certificate of teachership from 60 to 55 was not agreed to, after a protracted discussion.

The Committee on the Revision of Studies reported through Mr. Armstrong that three of the teachers of music had resigned, and recommended an examination of candidates to fill the vacancies. The committee suggest that unmarried ladies have the preference; also those who can play the piano and have a

Mr. Millikin moved that the Committee on Accounts be requested to obtain the opinion of the City Solicitor as to the power of the board to fix the salaries of school teachers independently of the action of Councils.

Mr. Armstrong read an opinion of Judge Woodward, in which it was decided that Councils have the controlling power in fixing the salaries of teachers. A motion to so amend as to take the question into Court on a test case was carried.

—About 6 o'clock last night a fire broke out in the Harmonie Hall, or "Deutches Theatre," situated about one hundred and sixty feet back from Coates street, below Franklin. The building was a high two-story structure of pressed brick, thirty-five feet wide by one hundred and twenty feet deep, and was owned by the Harmonie Club, whose and was owned by the Harmonie Club, whose club house is on Coates street, east of the building. The ground on which it stands was leased from Dr. C. M. Griffiths for a period of ten years. Six of them expired on the first of

February last. The hall was built in 1864 by the Harmonie Club, for the purpose of dramatic performances, balls, and literary exercises, at a cost of \$20,000, and was leased by them to the

Deutchess Theatre Company.

Yesterday evening Genevieve de Brabant was to have been performed there, and the janitor was engaged in lighting the side lights on the flies by means of his alcohol lamp, preparatory to the performance. While so engaged, his lamp came in contact with the side scenes, and instantly the whole of the scenery was in flames.

They burnt rapidly and fiercely, and be-fore 7 o'clock the entire upper story was de-stroyed, with all its contents, consisting of wardrobe, scenery, piano, over \$500 worth of music, dresses, and all other paraphernalia

of a theatre.

The loss is estimated at \$15,000, while there is an insurance of only \$4500 in the office of the Fire Association. The building had been but lately redecorated, and presented a fine appearance. It was capable of seating seven hundred persons easily.

The Deutches Theatre Company had sold

\$3000 worth of tickets for performances yet to come off, and there was to have been a grand fancy dress ball in the building on Wednesday evening next.

—The name of Diamond street is likely to be much better known to our citizens in the future than in the past. The street crosses North Broad street, above the Monument Cemetery, and is laid out on the city plan so that it strikes the Park at a point below Lau-

The owners of the ground fronting upon this street, or at least a very large majority of them, have offered to Councils to widen it to seventy feet, and to pave it throughout with Nicolson pavement this spring at their own expense. All that is asked of the city is to do what it invariably does in the case of opening new streets, grade the roadway and pave the intersections. This the city would have to do at any time that the street should be opened. The owners are ready to do their share at once, and to give the extra ground

without compensation. —A large meeting of the members of the Bar was held yesterday at noon, in the District Court room, to take action in reference to the death of William Francis Judson. Hon. William S. Strong presided. A series of resolutions were adopted and ordered to be conveyed to the family of deceased.

## NEW HAMPSHIRE.

The Election Re-election of Gov. Stearns-The Legislature Republican. Concord, March 8.—Returns have been received from about half of the State, showing that Stearns, Republican, is elected Governor by nearly 1500 majority—a Republican loss of about 1800.
Concorp, March 8.—The following is the

received from 147 towns, over two-thirds of the State, which gave Stearns 26,624; Bedel, 17,831; Flint, 4877; Barrows, 881. Stearns loss from last year is over 1600. His majority last year was 3781. Stearns is probably elected by from 1000 to 1500 majority.

The Legislature is Republican, with the majority reduced from last year.

CONCORD, March 8—11 P. M.—The Republicans have probably elected six Senators, and there will probably be two vacancies. The Republicans have also elected three out of five Councillors.

One hundred and sixty-four towns give Stearns 27,788; Bedel, 19,420; Flint, 5114, and Barrows, 999. The returns so far show a net loss to Stearns of 1850 over last year. March 9-1 A. M.-The returns show a still further loss to Stearns, but indicate his election by 1200 or 1500 majority. The returns embrace about seven-eighths of the

State. The Democrats have probably elected

four Senators.

The Republicans have undoubtedly carried the First, Second, Third, Fifth, Seventh, and Ninth Senatorial Districts. The Tenth and Eleventh are conceded doubtful. The Republicans have carried four of the Councillors Districts, and the Democrats one-the same as last year. The House will show little change, there being probably 40 or 50 Repub-lican majority in that branch.
